DE ENGENHARIA CIVIL

LNEC's guest centre

LNEC houses in its campus a Guest Centre for trainees, scholarship holders, guests and participants in meetings, seminars, projects and any other events or activities organized by LNEC.

Room information

LNEC's Guest Centre has six single rooms, five double rooms and two suites (both equipped with two single beds). All rooms have a private bathroom, single and double rooms have showers and suites have bathtubs, and an independent heating system. Also, all rooms have a private balcony.

Cleaning is daily, from Monday to Friday. Linens and towels are changed once a week.

LNEC's Guest Centre also has a living room and a kitchen equipped with refrigerator, microwave oven and stove, where guests can prepare breakfast and simple meals.

Free Wireless Internet is available as well as cable TV with international channels.

In the living room there is a telephone with direct access to all internal phone numbers as well as to numbers from the Lisbon area (prefix 21).

Unfortunately, we cannot take care of residents' personal clothes; however there are several laundries nearby.

Location

Our campus is located in Lisbon, Avenida do Brasil, in the area of Alvalade, at about 10 minutes distance from Lisbon International Airport and quite close (about 20 minutes) to the city centre (both the airport and the city centre can be easily reached by subway or bus). In the vicinity there are several restaurants, coffee shops, supermarkets and other stores. 

LNEC's reception is open 24 hours a day, 7 days a week, so there is no time limit for checking in or out.

LNEC's campus has permanent security.
